

Warehouse safety barriers

The perfect partner for your steel barrier range

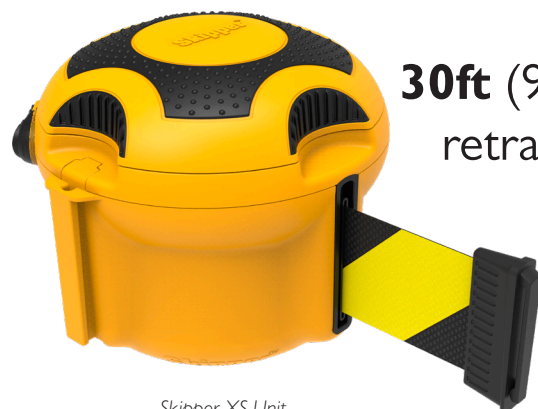

Modular retractable barriers made for you

Extension solutions

Skipper products can quickly and easily attach to your steel guard rails, bollards and even connect to racking. Creating a temporary, cost effective, barrier solution that compliments your existing product range.

Skipper XS Unit

30ft (9m) of
retractable
tape

Each Skipper unit contains 30ft (9m) of retractable tape and is the perfect solution for cordoning off large areas, increasing safety in a warehouse environment.

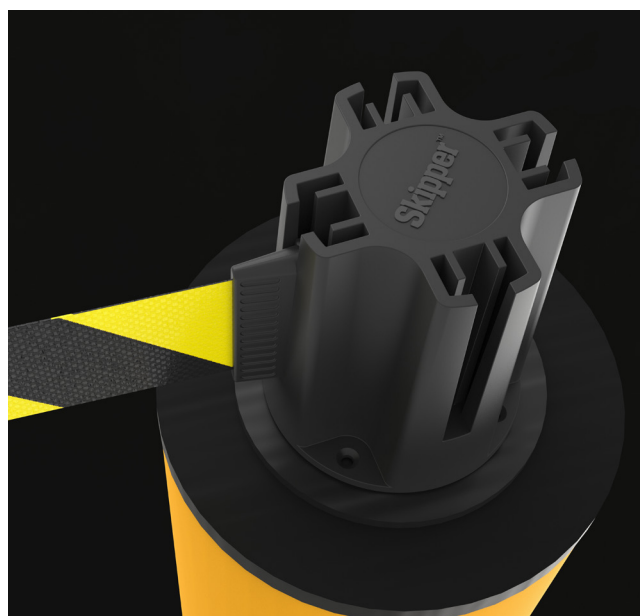

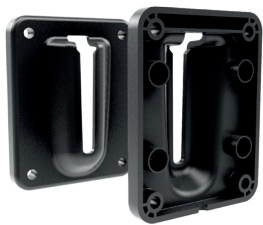

The range of Skipper accessories allows for a seamless integration. Our Skipper Bollard Adapter and Bollard Tape Receiver unit can sit on the top of your guard rails & bollards..

Bollard Adapter

Bollard Tape Receiver

Skipper Wall / Magnetic Receiver Clips

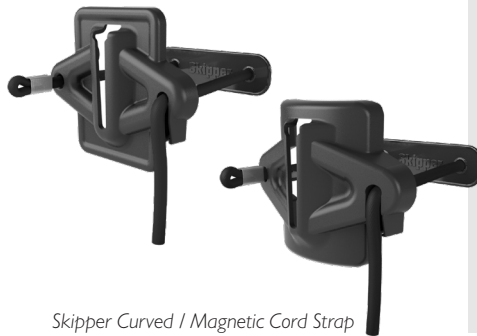

Other available attachments

Our Magnetic Support Brackets and Receiver Clips provide further flexible solutions to create your extended barrier system.

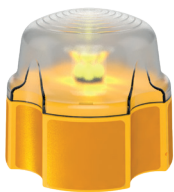

Skipper Suction Pad

Skipper Curved / Magnetic Cord Strap

There isn't a surface it can't connect to

Our Curved and Magnetic Cord Straps utilise a robust bungee cord to tourniquet the Skipper unit to your polymer products.

Skipper Light

The right connections

Simply twist on our rechargeable safety flashing light for added warnings inside and out.

Skipper A4 Sign Holder

Connect and direct

Designed to fit onto the top of each Skipper adding warnings, promotional messages, and directions for your safety.

Created to connect to anything externally

The Skipper unit has up to 30ft (9m) of high visibility webbing. With a host of features such as locking mechanisms for wind and modular top caps, it's the most versatile barrier on the market.

TAPE OPTIONS: red & white, black & yellow, 'CAUTION DO NOT ENTER', blue & white, black & yellow 'CAUTION', red & white 'DANGER'

Multiple colour options
